

Dear Granborough Residents

21<sup>st</sup> January 2019

Members of the Granborough Neighbourhood Plan (GNP) steering group would like to thank all of you who participated in the "Open House" event on Saturday the 19<sup>th</sup> January.

Your interest and involvement in this activity will help us to understand what issues are important to you. The results of your feedback, the sharing of your ideas, will help us to build consensus on what needs to be accomplished in Granborough.

We had over 50 residents from across the village who took part, and we received literally hundreds of inputs from the visitors. These inputs will now be analysed and summarised in a report of the views, ideas and aspirations of the people of Granborough, and from this we will produce a more focused house by house questionnaire as the next significant step.

If there was one negative from the event, we were disappointed with the attendance of residents in the younger age groups. Our response will be to try to find ways to improve on this so that a wider range of opinion can be included in our preparation of the Plan.

Thank you for your contributions to the GNP project

Yours sincerely

GNP Steering Group
